

TEREZA VANÍČKOVÁ

My name is Tereza Vaníčková, I'm a graphic designer, living near Brno, and studying at university in Prague. I'm a lover of health (food and lifestyle), sports, travel, and reading great literature. I believe that graphic design can help us to create a better world and make our lives easier — that's why I chose this profession.

SKILLS

From the Adobe CC library I love Illustrator and InDesign. InDesign is perfect for typesetting books and Illustrator for logo design, for example. But I also have a lot of experience with Photoshop, After Effects and Adobe Premiere or even Adobe XD. Cinema 4D is the perfect tool for creating 3D visualizations, and Microsoft Office is a typical tool for everyday use.
